

JPMorgan Chase & Co.

Leveraged Floating Rate Notes Linked to LIBOR and the SIFMA Municipal Swap Index **General**

- JPMorgan Chase & Co. may offer and sell leveraged floating rate notes linked to LIBOR and the SIFMA Municipal Swap Index from time to time. This product supplement no. 93-II describes terms that will apply generally to the notes, and supplements the terms described in the accompanying prospectus supplement and prospectus. A separate term sheet or pricing supplement, as the case may be, will describe terms that apply specifically to the notes, including any changes to the terms specified below. We refer to such term sheets and pricing supplements generally as terms supplements. If the terms described in the relevant terms supplement are inconsistent with those described herein or in the accompanying prospectus supplement or prospectus, the terms described in the relevant terms supplement shall control.
- The notes are the senior unsecured obligations of JPMorgan Chase & Co.
- We will pay interest on the notes that is linked to the LIBOR and the SIFMA Municipal Swap Index, except to the extent an Initial Interest Rate applies, as described below.
- If so specified in the relevant terms supplement, at our option, we may redeem the notes, in whole or in part, on any of the specified Redemption Dates.
- For important information about tax consequences, see "Certain U.S. Federal Income Tax Consequences" beginning on page PS-17.
- Minimum denominations of \$1,000 and integral multiples thereof, unless otherwise specified in the relevant terms supplement.
- The notes will not be listed on any securities exchange, unless otherwise specified in the relevant terms supplement.

Key Terms

Maturity Date:	As specified in the relevant terms supplement; <i>provided</i> that the maturity date will not be less than one year and one day (counting for this purpose the issue date but not the maturity date) after the issue date. The maturity date of the notes is subject to postponement as described under "Description of Notes — Payment at Maturity."
Payment at Maturity:	Unless otherwise specified in the relevant terms supplement, if the notes have not been redeemed (if applicable), at maturity you will receive a cash payment for each \$1,000 principal amount note of \$1,000 <i>plus</i> any accrued and unpaid interest.
Payment upon Redemption (if applicable):	If so specified in the relevant terms supplement, at our option, we may redeem the notes, in whole or in part, on any of the specified Redemption Dates. Unless otherwise specified in the relevant terms supplement, if the notes are redeemed, you will receive on the applicable Redemption Date a cash payment equal to \$1,000 for each \$1,000 principal amount note redeemed <i>plus</i> any accrued and unpaid interest. Any accrued and unpaid interest on notes redeemed will be paid to the person who is the holder of record of such notes at the close of business on the 15 th calendar day prior to the Redemption Date.
Redemption Date(s) (if applicable):	As specified in the relevant terms supplement. Any Redemption Date is subject to postponement as described under "Description of Notes — Payment upon Redemption."
Interest:	Unless otherwise specified in the relevant terms supplement, with respect to each Interest Period, for each \$1,000 principal amount note, the interest payment will be calculated as follows:

$$\$1,000 \times \text{Interest Rate} \times (\text{the actual number of days in the Interest Period} / 365)$$

(continued on next page)

Investing in the Leveraged Floating Rate Notes involves a number of risks. See "Risk Factors" beginning on page PS-6.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the notes or passed upon the accuracy or the adequacy of this product supplement no. 93-II, the accompanying prospectus supplement and prospectus, or any related terms supplement. Any representation to the contrary is a criminal offense.

The notes are not bank deposits and are not insured by the Federal Deposit Insurance Corporation or any other governmental agency, nor are they obligations of, or guaranteed by, a bank.

JPMorgan

August 28, 2007

Key Terms (continued)

Interest Rate:	<p>Unless otherwise specified in the relevant terms supplement:</p> <ol style="list-style-type: none">(1) if the relevant terms supplement specifies an Initial Interest Rate, with respect to each Initial Interest Period, the Initial Interest Rate, and with respect to each subsequent Interest Period, a rate per annum equal to the sum of (1) the Interest Factor and (2) the product of (a) the Leverage Factor and (b) (i) the product of the LIBOR Adjustment Factor and the Average LIBOR <i>minus</i> (ii) the Average SIFMA Level on the applicable Determination Date; or(2) if the relevant terms supplement does not specify an Initial Interest Rate, with respect to each Interest Period, a rate per annum equal to the sum of (1) the Interest Factor and (2) the product of (a) the Leverage Factor and (b) (i) the product of the LIBOR Adjustment Factor and the Average LIBOR <i>minus</i> (ii) the Average SIFMA Level on the applicable Determination Date. <p>Unless otherwise specified in the relevant terms supplement, the Interest Rate for each Interest Period, other than the Initial Interest Periods, will be calculated as follows:</p> $\text{Interest Factor} + \{\text{Leverage Factor} \times [(\text{LIBOR Adjustment Factor} \times \text{Average LIBOR}) - \text{Average SIFMA Level}]\}$ <p>Notwithstanding the foregoing, in no event will the Interest Rate for any Interest Period be less than the Minimum Rate or, if applicable, greater than the Maximum Rate.</p>
Initial Interest Rate (if applicable):	<p>A rate per annum as specified in the relevant terms supplement, which may be a fixed rate or a floating rate linked to a rate specified in the relevant terms supplement, plus or minus a spread. For example, the relevant terms supplement may specify that the Initial Interest Rate for each Initial Interest Period will be equal to the sum of (1) the LIBOR Rate with a Designated Maturity of three months on the applicable Interest Reset Date plus (2) 4.00%. If the Interest Factor is determined by reference to a floating rate, for purposes of the determination of the Interest Factor for an Interest Period, that floating rate will be reset on each Interest Reset Date.</p>
Initial Interest Period(s) (if applicable):	<p>The Interest Period(s) as specified in the relevant terms supplement to which the Initial Interest Rate is applicable.</p>
Interest Reset Date(s) (if applicable):	<p>As specified in the relevant terms supplement.</p>
Determination Dates:	<p>For each Interest Period, two business days immediately prior to the beginning of the applicable Interest Period, or as specified in the relevant terms supplement (but no earlier than three months prior to the beginning of the applicable Interest Period).</p>
Interest Period:	<p>Unless otherwise specified in the relevant terms supplement, the period beginning on and including the issue date of the notes and ending on but excluding the first Interest Payment Date or, if the notes are subject to redemption by us and have been redeemed prior to the first Interest Payment Date, ending on but excluding the Redemption Date, and each successive period beginning on and including an Interest Payment Date and ending on but excluding the next succeeding Interest Payment Date or, if the notes are subject to redemption by us and have been redeemed prior to such next succeeding Interest Payment Date, ending on but excluding the Redemption Date.</p>
Interest Payment Dates:	<p>As specified in the relevant terms supplement, but at least once every twelve months.</p>
Interest Factor:	<p>For each Interest Period (other than the Initial Interest Period(s), if applicable), a rate per annum as specified in the relevant terms supplement.</p>
Leverage Factor:	<p>As specified in the relevant terms supplement.</p>
LIBOR Adjustment Factor:	<p>As specified in the relevant terms supplement.</p>
Minimum Rate:	<p>0.00% per annum, unless otherwise specified in the relevant terms supplement.</p>
Maximum Rate (if applicable):	<p>For each Interest Period (other than the Initial Interest Period(s), if applicable), a rate per annum as specified in the relevant terms supplement.</p>
Average LIBOR:	<p>Unless otherwise specified in the relevant terms supplement, on any Determination Date, the daily weighted average of the applicable LIBOR Rates for each calendar day in the Averaging Period. For the purposes of calculating the Average LIBOR, the determination of the applicable LIBOR Rate for each calendar day in the Averaging Period will be based on such LIBOR Rate on the LIBOR Determination Date. The applicable LIBOR Rate will be reset weekly on each LIBOR Determination Date; however, the average calculation is measured daily for each calendar day in the Averaging Period.</p>

Key Terms (continued)

LIBOR Rate:	Unless otherwise specified in the relevant terms supplement, for each LIBOR Determination Date, the LIBOR Rate refers to the London Interbank Offer Rate for deposits in U.S. dollars with the Designated Maturity specified in the relevant terms supplement that appears on Reuters page "LIBOR01" (or any successor page) at approximately 11:00 a.m., London time, on the second London business day before the LIBOR Determination Date, as determined by the calculation agent.
Designated Maturity:	The applicable maturity, as specified in the relevant terms supplement, to be used to determine the applicable LIBOR Rate. For example, the relevant terms supplement may specify that the applicable LIBOR Rate will be based on the three-month LIBOR, in which case the Designated Maturity would be three months.
Averaging Period:	As specified in the relevant terms supplement.
LIBOR Determination Date:	Unless otherwise specified in the relevant terms supplement, for each calendar day in the Averaging Period, the immediately preceding Thursday. However, if such day is not a business day or a London business day, the applicable LIBOR Determination Date will be the following day that is both a business day and a London business day.
Average SIFMA Level:	Unless otherwise specified in the relevant terms supplement, on any Determination Date, the daily weighted average of the Index levels of the SIFMA Municipal Swap Index for each calendar day in the Averaging Period. For the purposes of calculating the Average SIFMA Level, the Index level of the SIFMA Municipal Swap Index for each calendar day in the Averaging Period will be based on the Index level of the SIFMA Municipal Swap Index on the SIFMA Determination Date. The Index level of the SIFMA Municipal Swap Index is reset weekly on each SIFMA Determination Date; however, the average calculation is measured daily for each calendar day in the Averaging Period.
SIFMA Municipal Swap Index:	The Securities Industry and Financial Markets Association Municipal Swap Index, or the SIFMA Municipal Swap Index, was created by the Securities Industry and Financial Markets Association, or SIFMA, and produced by Municipal Market Data, or MMD, a Thomson Financial Services company. The SIFMA Municipal Swap Index is a seven-day high-grade market index composed of tax-exempt variable-rate demand obligations, or VRDOs, from MMD's database of VRDO issues. The Index level of the SIFMA Municipal Swap Index is calculated on a weekly basis, and released to subscribers on Thursday. See "SIFMA Municipal Swap Index."
SIFMA Determination Date:	Unless otherwise specified in the relevant terms supplement, for each calendar day in the Averaging Period, the immediately preceding Thursday. However, if such day is not a U.S. Government Securities Business Day, the applicable SIFMA Determination Date will be the following U.S. Government Securities Business Day.
London business day:	Any day, unless otherwise specified in the relevant terms supplement, other than a day on which banking institutions in London are authorized or required by law, regulation or executive order to close.
U.S. Government Securities Business Day:	Any day, unless otherwise specified in the relevant terms supplement, other than a Saturday, Sunday or a day on which SIFMA recommends that the fixed income departments of its members be closed for the entire day for purposes of trading in U.S. government securities.

In making your investment decision, you should rely only on the information contained or incorporated by reference in the terms supplement relevant to your investment, this product supplement no. 93-II and the accompanying prospectus supplement and prospectus with respect to the notes offered by the relevant terms supplement and this product supplement no. 93-II and with respect to JPMorgan Chase & Co. This product supplement no. 93-II, together with the relevant terms supplement and the accompanying prospectus and prospectus supplement, contain the terms of the notes and supersede all other prior or contemporaneous oral statements as well as any other written materials including preliminary or indicative pricing terms, correspondence, trade ideas, structures for implementation, sample structures, fact sheets, brochures or other educational materials of ours. The information in the relevant terms supplement, this product supplement no. 93-II and the accompanying prospectus supplement and prospectus may only be accurate as of the dates of each of these documents, respectively.

The notes described in the relevant terms supplement and this product supplement no. 93-II are not appropriate for all investors, and involve important legal and tax consequences and investment risks, which should be discussed with your professional advisers. You should be aware that the regulations of the National Association of Securities Dealers, Inc. and the laws of certain jurisdictions (including regulations and laws that require brokers to ensure that investments are suitable for their customers) may limit the availability of the notes. The relevant terms supplement, this product supplement no. 93-II and the accompanying prospectus supplement and prospectus do not constitute an offer to sell or a solicitation of an offer to buy the notes in any circumstances in which such offer or solicitation is unlawful.

In this product supplement no. 93-II and the accompanying prospectus supplement and prospectus, “we,” “us” and “our” refer to JPMorgan Chase & Co., unless the context requires otherwise.

We are offering to sell, and are seeking offers to buy, the notes only in jurisdictions where offers and sales are permitted. Neither this product supplement no. 93-II nor the accompanying prospectus supplement, prospectus or terms supplement constitutes an offer to sell, or a solicitation of an offer to buy, any notes by any person in any jurisdiction in which it is unlawful for such person to make such an offer or solicitation. Neither the delivery of this product supplement no. 93-II nor the accompanying prospectus supplement, prospectus or terms supplement, nor any sale made hereunder implies that there has been no change in our affairs or that the information in this product supplement no. 93-II and accompanying prospectus supplement, prospectus and terms supplement is correct as of any date after the date hereof.

You must (i) comply with all applicable laws and regulations in force in any jurisdiction in connection with the possession or distribution of this product supplement no. 93-II and the accompanying prospectus supplement, prospectus and terms supplement and the purchase, offer or sale of the notes and (ii) obtain any consent, approval or permission required to be obtained by you for the purchase, offer or sale by you of the notes under the laws and regulations applicable to you in force in any jurisdiction to which you are subject or in which you make such purchases, offers or sales; neither we nor the agents shall have any responsibility therefor.

The notes are not and will not be authorized by the Comisión Nacional de Valores for public offer in Argentina and may thus not be offered or sold to the public at large or to sectors or specific groups thereof by any means, including but not limited to personal offerings, written materials, advertisements or the media, in circumstances which constitute a public offering of securities under Argentine Law No. 17,811, as amended.

The notes have not been and will not be registered with the “Comissão de Valores Mobiliários” — the Brazilian Securities and Exchange Commission (“CVM”) and accordingly, the notes may not be sold, promised to be sold, offered, solicited, advertised and/or marketed within the Federative Republic of Brazil in an offering that can be construed as a public offering under CVM Instruction nº 400, dated December 29, 2003, as amended from time to time.

The notes have not been registered with the Superintendencia de Valores y Seguros in Chile and may not be offered or sold publicly in Chile. No offer, sales or deliveries of the notes, or distribution of this product supplement no. 93-II or the accompanying prospectus supplement, prospectus or terms supplement may be made in or from Chile except in circumstances which will result in compliance with any applicable Chilean laws and regulations.

The notes may not be offered or sold in Hong Kong, by means of any document, other than to persons whose ordinary business it is to buy or sell shares or debentures, whether as principal or agent, or in circumstances that do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32) of Hong Kong. Each Agent has not issued and will not issue any advertisement, invitation or document relating to the notes, whether in Hong Kong or elsewhere, which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to notes which are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” within the meaning of the Securities and Futures Ordinance (Cap. 571) of Hong Kong and any rules made thereunder.

The notes have not been, and will not be, registered with the National Registry of Securities maintained by the Mexican National Banking and Securities Commission nor with the Mexican Stock Exchange and may not be offered or sold publicly in the United Mexican States. This product supplement no. 93-II and the accompanying prospectus supplement, prospectus and terms supplement may not be publicly distributed in the United Mexican States.

Neither this product supplement no. 93-II nor the accompanying prospectus supplement, prospectus or terms supplement has been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this product supplement no. 93-II, the accompanying prospectus supplement, prospectus or terms supplement, and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the notes may not be circulated or distributed, nor may the notes be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the “SFA”), (ii) to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

DESCRIPTION OF NOTES

The following description of the terms of the notes supplements the description of the general terms of the debt securities set forth under the headings "Description of Notes" in the accompanying prospectus supplement and "Description of Debt Securities" in the accompanying prospectus. A separate terms supplement will describe the terms that apply specifically to the notes, including any changes to the terms specified below. Capitalized terms used but not defined in this product supplement no. 93-II have the meanings assigned in the accompanying prospectus supplement, prospectus and the relevant terms supplement. The term "note" refers to each \$1,000 principal amount of our Leveraged Floating Rate Notes linked to LIBOR and the SIFMA Municipal Swap Index.

General

The Leveraged Floating Rate Notes are senior unsecured obligations of JPMorgan Chase & Co. that are linked to LIBOR and the Securities Industry and Financial Markets Association Municipal Swap Index, or the SIFMA Municipal Swap Index. The notes are a series of securities referred to in the accompanying prospectus supplement, prospectus and the relevant terms supplement. The notes will be issued by JPMorgan Chase & Co. under an indenture dated May 25, 2001, as may be amended or supplemented from time to time, between us and Deutsche Bank Trust Company Americas (formerly Bankers Trust Company), as trustee.

The notes are not bank deposits and are not insured by the Federal Deposit Insurance Corporation or by any other governmental agency, nor are they obligations of, or guaranteed by, a bank.

The notes are our unsecured and unsubordinated obligations and will rank *pari passu* with all of our other unsecured and unsubordinated obligations.

The notes will be issued in denominations of \$1,000 and integral multiples thereof, unless otherwise specified in the relevant terms supplement. The principal amount and issue price of each note is \$1,000, unless otherwise specified in the relevant terms supplement. The notes will be represented by one or more permanent global notes registered in the name of The Depository Trust Company, or DTC, or its nominee, as described under "Description of Notes — Forms of Notes" in the prospectus supplement and "Forms of Securities — Global Securities" in the prospectus.

The specific terms of the notes will be described in the relevant terms supplement accompanying this product supplement no. 93-II. The terms described in that document supplement those described herein and in the accompanying prospectus and prospectus supplement. If the terms described in the relevant terms supplement are inconsistent with those described herein or in the accompanying prospectus or prospectus supplement, the terms described in the relevant terms supplement shall control.

Payment at Maturity

The maturity date for the notes will be set forth in the relevant terms supplement; *provided* that the maturity date will not be less than one year and one day (counting for this purpose the issue date but not the maturity date) after the issue date. If the scheduled maturity date is not a business day, then the maturity date will be the next succeeding business day following such scheduled maturity date, and the payment of principal and any accrued and unpaid interest will be made with the same force and effect on such next succeeding business day, but no additional interest will accrue as a result of the delayed payment.

Unless otherwise specified in the relevant terms supplement, if the notes have not been redeemed (if applicable), at maturity you will receive a cash payment for each \$1,000 principal amount note of \$1,000 plus any accrued and unpaid interest up to but excluding the maturity date.

Payment upon Redemption

If so specified in the relevant terms supplement, at our option, we may redeem the notes, in whole or in part, on any of the specified Redemption Dates. Unless otherwise specified in the relevant

terms supplement, if the notes are redeemed, you will receive on the applicable Redemption Date a cash payment equal to \$1,000 for each \$1,000 principal amount note redeemed. Any accrued and unpaid interest on notes redeemed will be paid to the person who is the holder of record of such notes at the close of business on the 15th calendar day prior to the Redemption Date.

The Redemption Date(s), if applicable, will be specified in the relevant terms supplement, and any such date is subject to adjustment as described below. If a Redemption Date is not a business day, the payment due on such Redemption Date will be made with the same force and effect on the next succeeding business day, but no additional interest will accrue as a result of such delayed payment.

Unless otherwise specified in the relevant terms supplement, to redeem the notes, we will mail a notice of redemption to DTC, as holder of the global notes, by first-class mail, postage prepaid, at least 5 business days and not more than 15 business days prior to the applicable Redemption Date. In case the notes are to be redeemed in part, the notice of redemption will state the portion of the principal amount of the notes to be redeemed. If less than all of the notes are to be redeemed, the trustee will select, in such manner as it shall deem appropriate and fair, the notes to be redeemed. Notes may be redeemed in part only in multiples equal to the authorized denomination for the notes, which, unless otherwise specified in the relevant terms supplement, will be \$1,000.

If notice of redemption has been given as provided above, the notes that are subject to redemption will become due and payable on the Redemption Date at the applicable redemption price plus accrued and unpaid interest, and interest on such notes will cease to accrue from and after the Redemption Date, and holders of such notes will have no rights in respect of such notes except the right to receive the redemption price and accrued and unpaid interest on the Redemption Date.

Interest

The notes will bear interest from the issue date of the notes to but excluding the maturity date. The amount of interest payable on the notes on each Interest Payment Date will be linked to LIBOR and the SIFMA Municipal Swap Index, except to the extent the relevant terms supplement specifies an Initial Interest Rate.

Unless otherwise specified in the relevant terms supplement:

- (1) if the relevant terms supplement specifies an Initial Interest Rate, with respect to each Initial Interest Period, the Initial Interest Rate, and with respect to each subsequent Interest Period, a rate per annum equal to the sum of (1) the Interest Factor and (2) the product of (a) the Leverage Factor and (b) (i) the product of the LIBOR Adjustment Factor and the Average LIBOR minus (ii) the Average SIFMA Level on the applicable Determination Date; or
- (2) if the relevant terms supplement does not specify an Initial Interest Rate, with respect to each Interest Period, a rate per annum equal to the sum of (1) the Interest Factor and (2) the product of (a) the Leverage Factor and (b) (i) the product of the LIBOR Adjustment Factor and the Average LIBOR minus (ii) the Average SIFMA Level on the applicable Determination Date.

Unless otherwise specified in the relevant terms supplement, the Interest Rate for each Interest Period, other than the Initial Interest Periods, will be calculated as follows:

$$\text{Interest Factor} + \{\text{Leverage Factor} \times [(\text{LIBOR Adjustment Factor} \times \text{Average LIBOR}) - \text{Average SIFMA Level}]\}$$

Notwithstanding the foregoing, in no event will the Interest Rate for any Interest Period be less than the Minimum Rate or, if applicable, greater than the Maximum Rate.

The "Initial Interest Rate," if applicable, will be a rate per annum as specified in the relevant terms supplement, which may be a fixed rate or a floating rate linked to a rate specified in the relevant terms supplement, plus or minus a spread. For example, the relevant terms supplement may specify that the Initial Interest Rate for each Initial Interest Period will be equal to the sum of (1) the LIBOR Rate with a Designated Maturity of three months on the applicable Interest Reset Date plus (2) 4.00%.

If the Interest Factor is determined by reference to a floating rate, for purposes of the determination of the Interest Factor for an Interest Period, that floating rate will be reset on each Interest Reset Date.

The "Initial Interest Period(s)," if applicable, will be the Interest Period(s) as specified in the relevant terms supplement to which the Initial Interest Rate is applicable.

The "Interest Reset Date(s)," if applicable, will be as specified in the relevant terms supplement to which a floating Initial Interest Rate is applicable.

For each Interest Period, the "Determination Date" will be the date that is two business days immediately prior to the beginning of the applicable Interest Period, or as specified in the relevant terms supplement (but no earlier than three months prior to the beginning of the applicable Interest Period).

For each Interest Period (other than the Initial Interest Period(s), if applicable), the "Interest Factor" will be a rate per annum as specified in the relevant terms supplement.

The "Leverage Factor" and the "LIBOR Adjustment Factor" will be specified in the relevant terms supplement.

The "Minimum Rate" will be 0.00% per annum, unless otherwise specified in the relevant terms supplement.

For each Interest Period (other than the Initial Interest Period(s), if applicable), the "Maximum Rate," if applicable, will be a rate per annum as specified in the relevant terms supplement.

Unless otherwise specified in the relevant terms supplement, the "Average LIBOR" on any Determination Date will be equal to the daily weighted average of the applicable LIBOR Rates for each calendar day in the Averaging Period. For the purposes of calculating the Average LIBOR, the determination of the applicable LIBOR Rate for each calendar day in the Averaging Period will be based on such LIBOR Rate for the applicable LIBOR Determination Date. The applicable LIBOR Rate will be reset weekly on each LIBOR Determination Date; however, the average calculation is measured daily for each calendar day in the Averaging Period.

Unless otherwise specified in the relevant terms supplement, for each LIBOR Determination Date, the "LIBOR Rate" refers to the London Interbank Offer Rate for deposits in U.S. dollars with the Designated Maturity specified in the relevant terms supplement that appears on Reuters page "LIBOR01" (or any successor page) at approximately 11:00 a.m., London time, on the second London business day before the LIBOR Determination Date, as determined by the calculation agent. If on any LIBOR Determination Date, the applicable LIBOR Rate cannot be determined by reference to the applicable Reuters page (or any successor page), then the calculation agent will request the principal London office of four major banks in the London interbank market, selected by the calculation agent, for deposits in U.S. dollars in a Representative Amount and for a term equal to the Designated Maturity, at approximately 11:00 a.m., London time, on such date. We refer to such banks as the "Reference Banks." The "Representative Amount" means an amount equal to the outstanding principal amount of the notes. If at least two such quotations are provided, the applicable LIBOR Rate for such LIBOR Determination Date will be the arithmetic average of such quotations. If fewer than two such quotations are provided, the calculation agent will request each of three major banks in New York City to provide such bank's rate to leading European banks for loans in U.S. dollars in a Representative Amount and for a term equal to the Designated Maturity, at approximately 11:00 a.m., New York City time, on such date. If at least two such rates are provided, then the applicable LIBOR Rate for such LIBOR Determination Date will be the arithmetic average of such rates. If fewer than two such rates are provided, the applicable LIBOR Rate for such LIBOR Determination Date will be the applicable LIBOR Rate for the immediately preceding LIBOR Determination Date.

The relevant terms supplement will specify the applicable maturity to be used to determine the applicable LIBOR Rate, which we refer to as the "Designated Maturity." For example, the relevant terms supplement may specify that the applicable LIBOR Rate will be based on the three-month LIBOR, in which case the Designated Maturity would be three months.

The "Averaging Period" will be specified in the relevant terms supplement.

Unless otherwise specified in the relevant terms supplement, the “LIBOR Determination Date” for each calendar day in the Averaging Period will be the immediately preceding Thursday. However, if such day is not a business day or a London business day, the applicable LIBOR Determination Date will be the following day that is both a business day and a London business day.

A “business day” is, unless otherwise specified in the relevant terms supplement, any day other than a day on which banking institutions in The City of New York are authorized or required by law, regulation or executive order to close or a day on which transactions in dollars are not conducted.

A “London business day” is, unless otherwise specified in the relevant terms supplement, any day other than a day on which banking institutions in London are authorized or required by law, regulation or executive order to close.

Unless otherwise specified in the relevant terms supplement, the “Average SIFMA Level” on any Determination Date will be equal to the daily weighted average of the Index levels of the SIFMA Municipal Swap Index for each calendar day in the Averaging Period. For the purposes of calculating the Average SIFMA Level, the Index level of the SIFMA Municipal Swap Index for each calendar day in the Averaging Period will be based on the Index level of the SIFMA Municipal Swap Index on the SIFMA Determination Date. The Index level of the SIFMA Municipal Swap Index is reset weekly on each SIFMA Determination Date; however, the average calculation is measured daily for each calendar day in the Averaging Period.

The “Index level,” with respect to the SIFMA Municipal Swap Index or any successor index (as defined below), on any SIFMA Determination Date will equal the official published level of the SIFMA Municipal Swap Index or any successor index on such date. Under some circumstances, the Index level of the SIFMA Municipal Swap Index or any successor index may be determined based on the alternative calculation described under “SIFMA Municipal Swap Index — Discontinuation of the SIFMA Municipal Swap Index; Alteration of Method of Calculation.”

Unless otherwise specified in the relevant terms supplement, the “SIFMA Determination Date” for each calendar day in the Averaging Period will be the immediately preceding Thursday. However, if such day is not a U.S. Government Securities Business Day, the applicable SIFMA Determination Date will be the following U.S. Government Securities Business Day.

A “U.S. Government Securities Business Day” is, unless otherwise specified in the relevant terms supplement, any day other than a Saturday, Sunday or a day on which the Securities Industry and Financial Markets Association recommends that the fixed income departments of its members be closed for the entire day for purposes of trading U.S. government securities.

If the notes are not subject to redemption by us or are subject to redemption by us but have not been redeemed, interest will accrue from the issue date of the notes to but excluding the maturity date. Interest will be paid in arrears on each Interest Payment Date and on the maturity date, to the holders of record at the close of business on the date 15 calendar days prior to that Interest Payment Date, whether or not such 15th calendar day is a business day, unless otherwise specified in the relevant terms supplement. If the maturity date is adjusted due to a non-business day, the payment of interest due on the maturity date will be made on the maturity date, as adjusted, with the same force and effect as if the maturity date had not been adjusted, but no additional interest will accrue or be payable as a result of the delayed payment.

If the notes are subject to redemption by us and have been redeemed, interest will accrue from the issue date of the notes to but excluding the Redemption Date. Interest will be paid in arrears on each Interest Payment Date occurring before the Redemption Date and on the Redemption Date, to the holders of record at the close of business on the date 15 calendar days prior to that Interest Payment Date or the Redemption Date, as applicable, whether or not such 15th calendar day is a business day, unless otherwise specified in the relevant terms supplement. If the Redemption Date is adjusted due to a non-business day, the payment of interest due on the Redemption Date will be made on the Redemption Date, as adjusted, with the same force and effect as if the Redemption Date had not been adjusted, but no additional interest will accrue or be payable as a result of the delayed payment.

Unless otherwise specified in the relevant terms supplement, an “Interest Period” is the period beginning on and including the issue date of the notes and ending on but excluding the first Interest Payment Date or, if the notes are subject to redemption by us and have been redeemed prior to the first Interest Payment Date, ending on but excluding the Redemption Date, and each successive period beginning on and including an Interest Payment Date and ending on but excluding the next succeeding Interest Payment Date or, if the notes are subject to redemption by us and have been redeemed prior to such next succeeding Interest Payment Date, ending on but excluding the Redemption Date.

An “Interest Payment Date” will be as specified in the relevant terms supplement, *provided* that no Interest Payment Date shall be more than twelve months after the immediately prior Interest Payment Date or issue date of the notes, as applicable. If any day on which a payment of interest is due is not a business day, the payment will be made with the same force and effect on the next succeeding business day, but no additional interest will accrue as a result of the delayed payment, and the next Interest Period, if applicable, will commence as if the payment had not been delayed.

Other Terms

We will irrevocably deposit with DTC no later than the opening of business on the applicable date or dates funds sufficient to make payments of the amount payable, if any, with respect to the notes on such date. We will give DTC irrevocable instructions and authority to pay such amount to the holders of the notes entitled thereto.

Subject to the foregoing and to applicable law (including, without limitation, U.S. federal laws), we or our affiliates may, at any time and from time to time, purchase outstanding notes by tender, in the open market or by private agreement.

RISK FACTORS

Your investment in the notes will involve certain risks. You should consider carefully the following discussion of risks before you decide that an investment in the notes is suitable for you.

Floating rate notes present different investment considerations than fixed rate notes or similar floating rate securities.

The rate of interest paid by us on the notes for each Interest Period (other than the Initial Interest Period(s), if applicable) is not fixed, but will vary depending, in part, on the difference, or spread, between the Average LIBOR (as adjusted by the LIBOR Adjustment Factor) and the Average SIFMA Level, which may be less than returns otherwise payable on debt securities issued by us with similar maturities. The variable interest rate on the notes, while determined, in part, by reference to the applicable LIBOR Rate and the SIFMA Municipal Swap Index, does not actually pay at such rates. You should consider, among other things, the overall annual percentage rate of interest to maturity as compared to other equivalent investment alternatives. We have no control over any fluctuations in the applicable LIBOR Rate or the Index level of the SIFMA Municipal Swap Index.

The interest rate on the notes is based on the spread between the Average LIBOR (as adjusted by the LIBOR Adjustment Factor) and the Average SIFMA Level, which may result in an interest rate of zero.

The applicable LIBOR Rate and the SIFMA Municipal Swap Index may be influenced by a number of factors, including (but not limited to) monetary policies, fiscal policies, inflation, general economic conditions and public expectations with respect to such factors. The effect that any single factor may have on the applicable LIBOR Rate and the SIFMA Municipal Swap Index may be partially offset by other factors. We cannot predict the factors that may cause the spread between the Average LIBOR (as adjusted by the LIBOR Adjustment Factor) and the Average SIFMA Level to increase or decrease. A decrease in the positive spread or an increase in the negative spread between the Average LIBOR (as adjusted by the LIBOR Adjustment Factor) and the Average SIFMA Level will result in a reduction of the interest rate per annum payable for the corresponding Interest Period (other than the Initial Interest Period(s), if applicable). The amount of interest you accrue on the notes in any Interest Period (other than the Initial Interest Period(s), if applicable) may decrease even if either or both of the applicable LIBOR Rate and the Index level of the SIFMA Municipal Swap Index increases. Interest during any Interest Period (other than the Initial Interest Period(s), if applicable) may be equal to zero, and you will not be compensated for any loss in value due to inflation and other factors relating to the value of money over time during such period.

The interest rate on the notes for any Interest Period (other than the Initial Interest Period(s), if applicable) may be subject to a Maximum Rate.

If so specified in the relevant terms supplement, the Interest Rate for any Interest Period (other than the Initial Interest Period(s), if applicable) may be subject to a Maximum Rate. This Maximum Rate will limit the amount of interest you may receive for each Interest Period. As a result, if the Interest Rate for any Interest Period (other than the Initial Interest Period(s), if applicable) without taking into consideration the Maximum Rate would have been greater than the Maximum Rate, the notes will provide you less interest income than an investment in a similar instrument that is not subject to a maximum interest rate.

The Leverage Factor may substantially reduce the interest rate on the notes and may lead to pricing fluctuations.

The Leverage Factor in the Interest Rate formula could result in the Interest Rate for any Interest Period (other than the Initial Interest Period(s), if applicable) being substantially lower than the Interest Factor, which represents the fixed component of the interest payment. This could negatively impact the market value of the notes, even in cases where the negative spread between the Average LIBOR (as adjusted by the LIBOR Adjustment Factor) and the Average SIFMA Level is relatively small.

If the notes are subject to redemption and are redeemed by us, the aggregate amount of interest paid to you will be less than the aggregate amount of interest payable over the term of the notes if held to maturity.

If the relevant terms supplement specifies that the notes are subject to redemption by us, and if we redeem all or part of your notes, for the notes that are redeemed, you will receive the principal amount of such notes and, assuming you are the record holder of the notes at the close of business on the 15th calendar date prior to the Redemption Date, accrued and unpaid interest to but excluding the Redemption Date. The aggregate amount of interest paid to you will be less than the aggregate amount of interest payable over the term of the notes if held to maturity. We may choose to redeem the notes early or choose not to redeem the notes early on any Redemption Date, in our sole discretion. We may choose to redeem the notes early, for example, if U.S. interest rates decrease significantly or if the volatility of U.S. interest rates decreases significantly. If we redeem the notes early, your return may be less than the yield that the notes would have earned if they had been held to maturity, and you may not be able to reinvest your funds at the same rate as provided by the notes.

The spread between the Average LIBOR (as adjusted by the LIBOR Adjustment Factor) and the Average SIFMA Level will be affected by a number of factors.

The amount of interest, if any, payable on notes (other than interest payable with respect to the Initial Interest Period(s), if applicable) will depend on the spread between the Average LIBOR (as adjusted by the LIBOR Adjustment Factor) and the Average SIFMA Level. A number of factors can affect the spread between the Average LIBOR (as adjusted by the LIBOR Adjustment Factor) and the Average SIFMA Level by causing changes in the relative values of the applicable LIBOR Rate and the Index level of the SIFMA Municipal Swap Index including, but not limited to:

- *changes in, or perceptions about, future marginal tax rates:* generally, decreases in, or a perception that there will be decreases in, marginal tax rates are expected to affect the spread between the Average LIBOR and the Average SIFMA Level, since variable-rate demand obligations, or VRDOs, that compose the SIFMA Municipal Swap Index are exempt from U.S. federal taxation;
- *changes or uncertainty with respect to the tax-exempt nature of municipal securities:* generally, changes in the tax laws that have an adverse effect on the tax-exempt nature of municipal securities are expected to affect the spread between the Average LIBOR and the Average SIFMA Level;
- *changes in the tax treatment of comparable securities:* changes in the tax laws that grant securities other than municipal securities favorable tax treatment to investors may adversely impact market demand for, and pricing of, municipal securities generally; such a development is expected to affect the spread between the Average LIBOR and the Average SIFMA Level; and
- *relative supply and demand for tax-exempt and taxable debt in their respective marketplaces and other factors affecting pricing of tax-exempt debt:* a relative decline in demand for or an increase in supply of tax-exempt debt caused by factors other than tax rates or other factors negatively impacting pricing of tax-exempt debt could reduce the spread between the Average LIBOR and the Average SIFMA Level to the extent that the Index level of the SIFMA Municipal Swap Index increases relative to the applicable LIBOR Rate as a result of these developments; such other factors include fragmentation in the municipal securities market that can lead to aberrational pricing as well as periods of illiquidity and the possibility of uncertainty with respect to the rights of investors holding these securities.

These and other factors may have a negative impact on the payment of interest on the notes. In addition, these and other factors may have a negative impact on the value of your notes in the secondary market.

The method of determining the variable interest rate for any Interest Period may not directly correlate with actual levels of the applicable LIBOR Rate and the SIFMA Municipal Swap Index.

The determination of the interest rate per annum payable for any Interest Period (other than the Initial Interest Period(s), if applicable) will be based, in part, on the applicable LIBOR Rate as specified in the relevant terms supplement and the SIFMA Municipal Swap Index, but it will not directly correlate with actual levels of the applicable LIBOR Rate and the SIFMA Municipal Swap Index. We will use the applicable LIBOR Rate on each LIBOR Determination Date and the Index level of the SIFMA Municipal Swap Index on each SIFMA Determination Date to determine the Average LIBOR and the Average SIFMA Level, respectively, on the applicable Determination Date, which are in turn used to determine the interest rate for such Interest Period. Moreover, the Average LIBOR and the Average SIFMA Level will be based on a daily weighted average of the applicable LIBOR Rate and the Index level of the SIFMA Municipal Swap Index that are reset weekly on the LIBOR Determination Date or SIFMA Determination Date, as applicable.

You will have no rights with respect to any VRDO included in the SIFMA Municipal Swap Index.

As a holder of the notes, you will not own or have any beneficial or other legal interest in, and will not be entitled to any rights with respect to, any VRDO included in the SIFMA Municipal Swap Index. An investment in the notes does not constitute an investment in any VRDO included in the SIFMA Municipal Swap Index. In addition, the interest you earn on the notes, if any, will not be tax-exempt municipal bond interest for U.S. federal income tax purposes. You are urged to review carefully the section entitled "Certain U.S. Federal Income Tax Consequences" in this product supplement for a description of the tax consequences of an investment in the notes and to consult your tax adviser regarding your personal circumstances.

SIFMA and/or MMD may discontinue the SIFMA Municipal Swap Index or adjust the SIFMA Municipal Swap Index in a way that affects its level, and neither SIFMA nor MMD has any obligation to consider your interests.

The SIFMA Municipal Swap Index was created by Securities Industry and Financial Markets Association (formerly the Bond Market Association) ("SIFMA") and produced by Municipal Market Data, a Thomson Financial Services company ("MMD"). SIFMA and/or MMD may make methodological or other changes that could change the Index level of the SIFMA Municipal Swap Index, including changes related to the method by which the Index level is calculated, the criteria for eligibility in the SIFMA Municipal Swap Index, or the timing with which the Index level is published. In addition, SIFMA and/or MMD may alter, discontinue or suspend calculation or dissemination of the SIFMA Municipal Swap Index. SIFMA and MMD have no obligation to consider your interests in calculating, revising or discontinuing the SIFMA Municipal Swap Index. In the event that the SIFMA Municipal Swap Index is no longer published, the calculation agent may select another comparable index as a successor index or substitute another value for the Index level as described under "SIFMA Municipal Swap Index — Discontinuation of the SIFMA Municipal Swap Index; Alteration of Method of Calculation." No assurance can be given that the rates used in lieu of the Index level of the SIFMA Municipal Swap Index will be accurate assessments of the average tax-exempt VRDO rates that the SIFMA Municipal Swap Index is currently intended to assess. Any of these actions could adversely affect the Average SIFMA Levels used to calculate the Interest Rate for any Interest Period and, therefore, the value of the notes or the amount of interest payment on any Interest Payment Date.

Secondary trading may be limited.

Unless otherwise specified in the relevant terms supplement, the notes will not be listed on a securities exchange. There may be little or no secondary market for the notes. Even if there is a secondary market for the notes, it may not provide enough liquidity to allow you to trade or sell the notes easily.

J.P. Morgan Securities Inc. ("JPMSI") may act as a market maker for the notes, but is not required to do so. Because we do not expect that other market makers will participate significantly in the secondary market for the notes, the price at which you may be able to trade your notes is likely to depend on the price, if any, at which JPMSI is willing to buy the notes. If at any time JPMSI or another Agent does not act as a market maker, it is likely that there would be little or no secondary market for the notes.

The notes are not designed to be short-term trading instruments.

The price at which you will be able to sell your notes to us or our affiliates prior to maturity, if at all, may be at a substantial discount from the principal amount of the notes, even in cases where the applicable LIBOR Rate and/or the Index level of the SIFMA Municipal Swap Index has appreciated since the pricing date. The potential returns described in the relevant terms supplement assume that your notes, which are not designed to be short-term trading instruments, are held to maturity unless redeemed by us prior to maturity.

Prior to maturity, the value of the notes will be influenced by many unpredictable factors.

Many economic and market factors will influence the value of the notes. We expect that, generally, the applicable LIBOR Rate and the Index level of the SIFMA Municipal Swap Index on any day will affect the value of the notes more than any other single factor. However, you should not expect the value of the notes in the secondary market to vary in proportion to changes in the applicable LIBOR Rate or the Index level of the SIFMA Municipal Swap Index. The value of the notes will be affected by a number of other factors that may either offset or magnify each other, including:

- the expected volatility in the applicable LIBOR Rate and the Index level of the SIFMA Municipal Swap Index;
- the spread between the applicable LIBOR Rate and the Index level of the SIFMA Municipal Swap Index;
- the time to maturity of the notes;
- interest and yield rates in the market generally, as well as the volatility of those rates;
- if the notes are subject to redemption by us, the likelihood, or expectation, that the notes will be redeemed by us, based on prevailing market interest rates or otherwise;
- economic, financial, political, regulatory or judicial events that affect the debt markets generally or the markets for tax-exempt VRDOs; and
- our creditworthiness, including actual or anticipated downgrades in our credit ratings.

You cannot predict the future performance of the applicable LIBOR Rate and the SIFMA Municipal Swap Index based on their historical performance. The spread between the Average LIBOR (as adjusted by the LIBOR Adjustment Factor) and the Average SIFMA Level may decrease or be negative such that you may not receive any return on your initial investment.

The inclusion in the original issue price of each agent's commission and the cost of hedging our obligations under the notes through one or more of our affiliates is likely to adversely affect the value of the notes prior to maturity.

While the payment upon early redemption or at maturity will be based on the full principal amount of your notes as described in the relevant terms supplement, the original issue price of the notes includes each agent's commission and the expected cost of hedging our obligations under the notes through one or more of our affiliates. Such cost includes our affiliates' expected cost of providing such hedge, as well as the profit our affiliates expect to realize in consideration for assuming the risks inherent in providing such hedge. As a result, assuming no change in market conditions or any other relevant factors, the price, if any, at which JPMSI will be willing to purchase notes from you in secondary market transactions, if at all, will likely be lower than the original issue price. In addition, any such prices may differ from values determined by pricing models used by JPMSI, as a result of such compensation or other transaction costs.

We or our affiliates may have adverse economic interests to the holders of the notes.

JPMSI and other affiliates of ours trade financial instruments related to LIBOR and/or the SIFMA Municipal Swap Index and some or all of the VRDOs included in the SIFMA Municipal Swap Index on a regular basis, for their accounts and for other accounts under their management. JPMSI and these affiliates may also issue or underwrite or assist unaffiliated entities in the issuance or underwriting of other securities or financial instruments with returns linked to LIBOR and/or the SIFMA Municipal Swap Index or some or all of the VRDOs included in the SIFMA Municipal Swap Index. To the extent that we or one of our affiliates serves as issuer, agent or underwriter for such securities or financial instruments, our or their interests with respect to such products may be adverse to those of the holders of the notes. Any of these trading activities could potentially affect the applicable LIBOR Rate or the Index level of the SIFMA Municipal Swap Index and, accordingly, could affect the value of the notes and the amount of interest, if any, payable on each Interest Payment Date.

We or one or more of our affiliates may publish research reports, or otherwise express views about the debt market, interest rates and VRDOs included in the SIFMA Municipal Swap Index. Any prospective purchaser of notes should undertake an independent investigation of the debt market, interest rates and VRDOs included in the SIFMA Municipal Swap Index as in its judgment is appropriate to make an informed decision with respect to any investment in the notes.

Furthermore, we or one of our affiliates may serve as issuer, agent or underwriter for additional issuances of notes with returns linked or related to spreads between LIBOR and the SIFMA Municipal Swap Index. By introducing competing products into the marketplace in this manner, we or one or more of our affiliates could adversely affect the value of the notes.

We may have hedged our obligations under the notes through certain affiliates, who would expect to make a profit on such hedge. Because hedging our obligations entails risk and may be influenced by market forces beyond our or our affiliates' control, such hedging may result in a profit that is more or less than expected, or it may result in a loss.

JPMSI, one of our affiliates, will act as the calculation agent. The calculation agent will determine, among other things: the applicable LIBOR Rate and the Average LIBOR, the Index level of the SIFMA Municipal Swap Index and the Average SIFMA Level, the applicable Interest Rate for each Interest Period, the Interest Payment Dates, the amount of interest payable on each Interest Payment Date and the amount of cash that we are required to pay to you at maturity or upon redemption. In addition, the calculation agent will determine whether a day is a business day, London business day or U.S. Government Securities Business Day, whether there has been a discontinuation of the SIFMA Municipal Swap Index and whether there has been a material change in the method of calculating the SIFMA Municipal Swap Index. In performing these duties, JPMSI may have interests adverse to the interests of the holders of the notes, which may affect your return on the notes, particularly where JPMSI, as the calculation agent, is entitled to exercise discretion.

The notes may be treated as contingent payment debt instruments for U.S. federal income tax purposes.

Depending on the facts at the time of the relevant offering, the notes may be treated as “contingent payment debt instruments” for U.S. federal income tax purposes. If the notes are so treated, you will generally be required to recognize interest income in each year at a “comparable yield,” which may be higher than the payments we may make with respect to the notes prior to maturity. Interest included in income will increase your basis in the notes and the projected amount of stated interest, if any, will reduce your basis in the notes. Generally, amounts received at maturity or on earlier sale or disposition in excess of your basis will be treated as additional interest income while any loss will generally be treated as an ordinary loss to the extent of all previous inclusions with respect to the notes, which will be deductible against other income (e.g., employment and interest income) with the balance treated as capital loss, which may be subject to limitations. Losses may be subject to special reporting requirements. You are urged to review carefully the section entitled “Certain U.S. Federal Income Tax Consequences” in this product supplement no. 93-II and consult your tax adviser regarding your particular circumstances.

JPMorgan Chase & Co. employees holding the notes must comply with policies that limit their ability to trade the notes and may affect the value of their notes.

If you are an employee of JPMorgan Chase & Co. or one of its affiliates, you may only acquire the notes for investment purposes and you must comply with all of our internal policies and procedures. Because these policies and procedures limit the dates and times that you may transact in the notes, you may not be able to purchase any notes described in the relevant terms supplement from us and your ability to trade or sell any such notes in the secondary market may be limited.

USE OF PROCEEDS

Unless otherwise specified in the relevant terms supplement, the net proceeds we receive from the sale of the notes will be used for general corporate purposes and, in part, by us or by one or more of our affiliates in connection with hedging our obligations under the notes. The original issue price of the notes includes each agent's commissions (as shown on the cover page of the relevant terms supplement) paid with respect to the notes. Unless otherwise specified in the relevant terms supplement, these commissions will include the reimbursement of certain issuance costs and the estimated cost of hedging our obligations under the notes. The estimated cost of hedging includes the projected profit that our affiliates expect to realize in consideration for assuming the risks inherent in hedging our obligations under the notes. Because hedging our obligations entails risk and may be influenced by market forces beyond our or our affiliates' control, the actual cost of such hedging may result in a profit that is more or less than expected, or could result in a loss. See also "Use of Proceeds" in the accompanying prospectus.

On or prior to the date of the relevant terms supplement, we, through our affiliates or others, may hedge some or all of our anticipated exposure in connection with the notes by entering into interest rate swap and option transactions, purchases and sales of VRDOs and listed or over-the-counter options on VRDOs or other derivative transactions with returns linked or related to LIBOR and the SIFMA Municipal Swap Index. While we cannot predict an outcome, such hedging activity or other hedging or investment activity of ours could potentially affect the applicable LIBOR Rate or the Index level of the SIFMA Municipal Swap Index and, therefore, effectively decrease the interest rate payable on the notes. From time to time, prior to maturity of the notes, we may pursue a dynamic hedging strategy which may involve taking long or short positions in securities or instruments whose value is derived from the applicable LIBOR Rate or the Index level of the SIFMA Municipal Swap Index. Although we have no reason to believe that any of these activities will have a material impact on the applicable LIBOR Rate or the Index level of the SIFMA Municipal Swap Index, or the value of the notes, we cannot assure you that these activities will not have such an effect.

We have no obligation to engage in any manner of hedging activity and will do so solely at our discretion and for our own account. No note holder shall have any rights or interest in our hedging activity or any positions we may take in connection with our hedging activity.

SIFMA MUNICIPAL SWAP INDEX

We have derived all information contained in this product supplement regarding the Securities Industry and Financial Markets Association Municipal Swap Index (the “SIFMA Municipal Swap Index” or the “Index”), including, without limitation, its make-up, method of calculation and changes in its components, from publicly available information. Such information reflects the policies of, and is subject to change by, the Securities Industry and Financial Markets Association (formerly the Bond Market Association) (“SIFMA”) and/or Municipal Market Data, a Thomson Financial Services company (“MMD”). We make no representation or warranty as to the accuracy or completeness of such information.

The SIFMA Municipal Swap Index (formerly known as the Bond Market Association (“BMA”) Municipal Swap Index) was created by SIFMA and is produced by MMD. The SIFMA Municipal Swap Index is a seven-day high-grade market index composed of tax-exempt variable-rate demand obligations, or VRDOs, from MMD’s database of VRDO issues. In a swap transaction, two counterparties “swap” fixed-rate interest payments for floating-rate interest payments, or vice versa. One of the most critical elements of a swap transaction is the index on which the floating rate is based. The SIFMA Municipal Swap Index is intended to serve as a benchmark floating rate in a swap transaction.

The SIFMA Municipal Swap Index is calculated on a weekly basis, and released to subscribers on Thursday. The actual number of issues that make up the SIFMA Municipal Swap Index will vary in time as issues mature or are called, converted, or newly issued. In addition, if changes occur that violate the criteria or calculation methods of the SIFMA Municipal Swap Index, an issue will be removed. The qualification criteria for the SIFMA Municipal Swap Index have been established by a subcommittee of SIFMA. Typically, the SIFMA Municipal Swap Index has included 650 issues in any given week.

Computation of the SIFMA Municipal Swap Index

To be eligible for inclusion in the SIFMA Municipal Swap Index, an issue must meet the following criteria:

- be a weekly reset, effective on Wednesday (no lag resets considered);
- not be subject to alternative minimum tax;
- have an outstanding amount of \$10 million or more;
- have the highest short-term rating (VMIG1 by Moody’s or A-1+ by S&P); and
- pay interest on a monthly basis, calculated on an actual/actual basis.

In addition, only one quote per obligor per remarketing agent will be included in the SIFMA Municipal Swap Index. Issues from all states are eligible for inclusion.

The following are part of calculation methods of the SIFMA Municipal Swap Index:

- The standard deviation of the rates is calculated. Any issue falling outside of +/- 1.0 standard deviations is removed.
- Each participating remarketing agent is limited to no more than 15% of the SIFMA Municipal Swap Index by an averaging method.

License Agreement

We expect that one of our affiliates will enter into a non-exclusive license agreement with SIFMA providing the right to use the SIFMA Municipal Swap Index owned by SIFMA and published by MMD in connection with certain securities, including the notes.

The notes are not sponsored, endorsed, sold or promoted by SIFMA or MMD. Neither SIFMA nor MMD makes any representation or warranty, express or implied, to the holder of the notes or to any member of the public regarding the advisability of investing in securities generally or in the notes particularly or the ability of the SIFMA or MMD to track the performance of municipal swaps. SIFMA’s only relationship to JP Morgan Chase & Co. and its subsidiaries (other than transactions entered into in

the ordinary course of business) is the licensing of certain servicemarks and tradenames of SIFMA and of the SIFMA Municipal Swap Index which is determined, composed and calculated by SIFMA and/or MMD without regard to JP Morgan Chase & Co., its subsidiaries or holders of the notes. Neither SIFMA nor MMD has any obligation to take the needs of JP Morgan Chase & Co., its subsidiaries or the holders of the notes into consideration in determining, composing or calculating the SIFMA Municipal Swap Index. Neither SIFMA nor MMD is responsible for and has participated in the determination of the timing or sale of the notes, prices at which the notes are initially to be sold, or quantities of the notes to be issued or in the determination or calculation of the equation by which interest is payable on the notes. SIFMA and MMD have no obligation or liability in connection with the administration, marketing or trading of the notes.

The SIFMA Municipal Swap Index is calculated using information that SIFMA and/or MMD considers reliable but neither SIFMA nor MMD represents that the SIFMA Municipal Swap Index is accurate or complete and it should not be relied upon as such by JP Morgan Chase & Co., its subsidiaries, the trustee or holders of the notes. In addition, the methodology used to calculate the SIFMA Municipal Swap Index may change from time to time and, although it will endeavor to provide JP Morgan Chase & Co. with reasonable advance notice, SIFMA and MMD reserve the right to discontinue publication of the SIFMA Municipal Swap Index at any time. In no event shall SIFMA or MMD have any liability to JP Morgan Chase & Co., its subsidiaries, the trustee, holders of the notes or any other third party for damages of any kind incident to the use of the SIFMA Municipal Swap Index.

Discontinuation of the SIFMA Municipal Swap Index; Alteration of Method of Calculation

If SIFMA and/or MMD discontinues publication of the SIFMA Municipal Swap Index and SIFMA and/or MMD or another entity publishes a successor or substitute index that the calculation agent determines, in its sole discretion, to be comparable to the discontinued SIFMA Municipal Swap Index (such index being referred to herein as a "successor index"), then the Index level for any SIFMA Determination Date or any other relevant date or dates as set forth in the relevant terms supplement will be determined by reference to the official published level of such successor index on such day.

Upon any selection by the calculation agent of a successor index, the calculation agent will cause written notice to be promptly furnished to the trustee, to us and to the holders of the notes.

If SIFMA and/or MMD discontinues publication of the SIFMA Municipal Swap Index prior to, and such discontinuation is continuing on, a SIFMA Determination Date or other relevant date as set forth in the relevant terms supplement, and the calculation agent determines, in its sole discretion, that no successor index is available at such time, or the calculation agent has previously selected a successor index and publication of such successor index is discontinued prior to, and such discontinuation is continuing on, such SIFMA Determination Date or other relevant date, then the calculation agent will determine the Index level for such date. The Index level will be computed by the calculation agent in accordance with the formula for and method of calculating the SIFMA Municipal Swap Index or successor index, as applicable, last in effect prior to such discontinuation. Notwithstanding these alternative arrangements, discontinuation of the publication of the SIFMA Municipal Swap Index or successor index, as applicable, may adversely affect the value of the notes.

If at any time the method of calculating the SIFMA Municipal Swap Index or a successor index, or the level thereof, is changed in a material respect, or if the SIFMA Municipal Swap Index or a successor index is in any other way modified so that the SIFMA Municipal Swap Index or such successor index does not, in the opinion of the calculation agent, fairly represent the level of the SIFMA Municipal Swap Index or such successor index had such changes or modifications not been made, then the calculation agent will, at the close of business in New York City on each date on which the Index level is to be determined, make such calculations and adjustments as, in the good faith judgment of the calculation agent, may be necessary in order to arrive at a level of an index comparable to the SIFMA Municipal Swap Index or such successor index, as the case may be, as if such changes or modifications had not been made, and the calculation agent will calculate the Index level with reference to the SIFMA Municipal Swap Index or such successor index, as adjusted.

GENERAL TERMS OF NOTES

Calculation Agent

J.P. Morgan Securities Inc. will act as the calculation agent. The calculation agent will determine, among other things: the applicable LIBOR Rate and the Average LIBOR, the Index level of the SIFMA Municipal Swap Index and the Average SIFMA Level, the applicable Interest Rate for each Interest Period, the Interest Payment Dates, the amount of interest payable on each Interest Payment Date and the amount of cash that we are required to pay to you at maturity or upon redemption. In addition, the calculation agent will determine whether a day is a business day, London business day or U.S. Government Securities Business Day, whether there has been a discontinuation of the SIFMA Municipal Swap Index and whether there has been a material change in the method of calculating the SIFMA Municipal Swap Index. All determinations made by the calculation agent will be at the sole discretion of the calculation agent and will, in the absence of manifest error, be conclusive for all purposes and binding on you and on us. We may appoint a different calculation agent from time to time after the date of the relevant terms supplement without your consent and without notifying you.

The calculation agent will provide written notice to the trustee at its New York office, on which notice the trustee may conclusively rely, of the amount to be paid at maturity, on a Redemption Date, if applicable, and each Interest Payment Date on or prior to 11:00 a.m., New York City time, on the business day preceding the maturity date, Redemption Date or Interest Payment Date, as applicable.

All calculations with respect to the applicable LIBOR Rate or Index level of the SIFMA Municipal Swap Index, as well as any successor or substitute rate calculation described above, and the Average LIBOR and the Average SIFMA Level will be rounded to the nearest one hundred-thousandth, with five one-millionths rounded upward (e.g., .876545 would be rounded to .87655); all dollar amounts related to determination of the interest payment per \$1,000 principal amount note on each Interest Payment Date, at maturity or on a Redemption Date, if any, will be rounded to the nearest ten-thousandth, with five one hundred-thousandths rounded upward (e.g., .76545 would be rounded up to .7655); and all dollar amounts paid on the aggregate principal amount of notes per holder will be rounded to the nearest cent, with one-half cent rounded upward.

Events of Default

Under the heading "Description of Debt Securities — Events of Default, Waiver, Debt Securities in Foreign Currencies" in the accompanying prospectus is a description of events of default relating to debt securities including the notes.

Payment Upon an Event of Default

Unless otherwise specified in the relevant terms supplement, in case an event of default with respect to the notes shall have occurred and be continuing, the amount declared due and payable per \$1,000 principal amount note upon any acceleration of the notes shall be determined by the calculation agent and shall be an amount in cash equal to \$1,000 per \$1,000 principal amount note plus accrued and unpaid interest, calculated as if the date of acceleration were the maturity date. In such case, interest will be calculated on the basis of a 365-day year and the actual number of days in such adjusted Interest Period and will be based on the Interest Rate on the Determination Date immediately preceding such adjusted Interest Period or (2) if such adjusted Interest Period falls within an Initial Interest Period, the Initial Interest Rate, unless otherwise specified in the relevant terms supplement.

If the maturity of the notes is accelerated because of an event of default as described above, we shall, or shall cause the calculation agent to, provide written notice to the trustee at its New York office, on which notice the trustee may conclusively rely, and to DTC of the cash amount due with respect to the notes as promptly as possible and in no event later than two business days after the date of acceleration.

Modification

Under the heading “Description of Debt Securities — Modification of the Indenture; Waiver of Compliance” in the accompanying prospectus is a description of when the consent of each affected holder of debt securities is required to modify the indenture.

Defeasance

The provisions described in the accompanying prospectus under the heading “Description of Debt Securities — Discharge, Defeasance and Covenant Defeasance” are not applicable to the notes, unless otherwise specified in the relevant terms supplement.

Listing

The notes will not be listed on any securities exchange, unless otherwise specified in the relevant terms supplement.

Book-Entry Only Issuance — The Depository Trust Company

DTC will act as securities depository for the notes. The notes will be issued only as fully registered securities registered in the name of Cede & Co. (DTC’s nominee). One or more fully registered global notes certificates, representing the total aggregate principal amount of the notes, will be issued and will be deposited with DTC. See the descriptions contained in the accompanying prospectus supplement under the headings “Description of Notes — Forms of Notes” and “The Depository.”

Registrar, Transfer Agent and Paying Agent

Payment of amounts due at maturity on the notes will be payable and the transfer of the notes will be registrable at the principal corporate trust office of The Bank of New York in The City of New York.

The Bank of New York or one of its affiliates will act as registrar and transfer agent for the notes. The Bank of New York will also act as paying agent and may designate additional paying agents.

Registration of transfers of the notes will be effected without charge by or on behalf of The Bank of New York, but upon payment (with the giving of such indemnity as The Bank of New York may require) in respect of any tax or other governmental charges that may be imposed in relation to it.

Governing Law

The notes will be governed by and interpreted in accordance with the laws of the State of New York.

CERTAIN U.S. FEDERAL INCOME TAX CONSEQUENCES

The following is a general discussion of the principal U.S. federal income tax consequences of the acquisition, ownership and disposition of notes. This discussion applies to you if you are an initial holder of notes purchasing the notes at their issue price for cash and if you hold the notes as capital assets within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended (the "Code").

This summary is based on the Code, existing and proposed Treasury regulations, revenue rulings, administrative interpretations and judicial decisions, in each case as currently in effect, all of which are subject to change, possibly with retroactive effect. This summary does not address all aspects of the U.S. federal income taxation of the notes that may be relevant to you in light of your particular circumstances or if you are a holder of notes who is subject to special treatment under the U.S. federal income tax laws, such as:

- a financial institution;
- an insurance company;
- a "regulated investment company" as defined in Code Section 851;
- a "real estate investment trust" as defined in Code Section 856;
- a tax-exempt entity, including an "individual retirement account" or "Roth IRA" as defined in Code Section 408 or 408A, respectively;
- a dealer in securities or foreign currencies;
- a person holding the notes as part of a hedging transaction, "straddle," conversion transaction, or integrated transaction, or who has entered into a "constructive sale" with respect to the notes;
- a U.S. Holder (as defined below) whose functional currency is not the U.S. dollar;
- a trader in securities or foreign currencies who elects to apply a mark-to-market method of tax accounting; or
- a partnership or other entity classified as a partnership for U.S. federal income tax purposes.

As the law applicable to the U.S. federal income taxation of instruments such as the notes is technical and complex, the discussion below necessarily represents only a general summary. Moreover, the effects of any applicable state, local or foreign tax laws are not discussed. You are urged to consult your tax adviser concerning the U.S. federal income tax consequences of owning and disposing of the notes, as well as any consequences under the laws of any state, local or foreign taxing jurisdiction.

Tax Treatment of the Notes

We expect to seek an opinion from Davis Polk & Wardwell, our special tax counsel, regarding the treatment of the notes as either "variable rate debt instruments" or "contingent payment debt instruments" for U.S. federal income tax purposes. If special tax counsel is able to provide an opinion regarding the tax treatment of the notes, then the relevant terms supplement will describe its level of comfort on this issue, which will depend on the facts of the particular offering, its receipt of certain factual representations from us at the time of the relevant offering and any additional considerations that may be relevant to the particular offering. In any event, the relevant terms supplement will specify whether we intend to treat the notes as variable rate debt instruments or as contingent payment debt instruments. By purchasing the notes, you will agree to treat the notes consistently with that treatment.

Tax Consequences to U.S. Holders

The following discussion applies to you only if you are a “U.S. Holder” of notes. You are a “U.S. Holder” if you are a beneficial owner of a note for U.S. federal income tax purposes that is:

- a citizen or resident of the United States;
- a corporation or other entity taxable as a corporation created or organized under the laws of the United States or any political subdivision thereof; or
- an estate or trust the income of which is subject to U.S. federal income taxation regardless of its source.

Notes Treated as Variable Rate Debt Instruments

Interest paid on a note that is treated as a variable rate debt instrument for U.S. federal income tax purposes (a “VRDI”) will generally be taxable to you as ordinary income at the time it accrues or is received in accordance with your method of tax accounting.

Upon the sale, exchange or other disposition of a VRDI (including early redemption), you will recognize taxable gain or loss equal to the difference between the amount realized and your adjusted tax basis in the note. For this purpose, the amount realized does not include any amount attributable to accrued interest, which will be treated as ordinary income as described in the preceding paragraph. In general, gain or loss realized upon the sale, exchange or other disposition of a VRDI (including early redemption) will be capital gain or loss and will be long-term capital gain or loss if you have held the VRDI for more than one year at such time. The deductibility of capital losses, however, is subject to limitations.

Notes Treated as Contingent Payment Debt Instruments

Notes that are treated as contingent payment debt instruments for U.S. federal income tax purposes (a “CPDI”) will generally be subject to the original issue discount (“OID”) provisions of the Code and the Treasury regulations issued thereunder, and you will be required to accrue as interest income the OID on the CPDI as described below.

We are required to determine a “comparable yield” for a CPDI. The “comparable yield” is the yield at which we could issue a fixed-rate debt instrument with terms similar to those of the notes, including the level of subordination, term, timing of payments and general market conditions, but excluding any adjustments for the riskiness of the contingencies or the liquidity of the CPDI. Solely for purposes of determining the amount of interest income that you will be required to accrue, we are also required to construct a “projected payment schedule” in respect of the CPDI representing a series of payments the amount and timing of which would produce a yield to maturity on the notes equal to the comparable yield.

Unless otherwise provided in the relevant terms supplement, we will provide, and you may obtain, the comparable yield for a particular offering of CPDI, and the related projected payment schedule, in the final terms supplement for such CPDI, which we will file with the SEC.

Neither the comparable yield nor the projected payment schedule constitutes a representation by us regarding the actual amount, if any, that we will pay on a CPDI.

For U.S. federal income tax purposes, you are required to use our determination of the comparable yield and projected payment schedule in determining interest accruals and adjustments in respect of a CPDI, unless you timely disclose and justify the use of other estimates to the IRS. Regardless of your accounting method, you will be required to accrue as interest income OID on the CPDI at the comparable yield, adjusted upward or downward to reflect the difference, if any, between the actual and the projected amount of the contingent payments on the CPDI (as described below).

In addition to interest accrued based upon the comparable yield as described above, you will be required to recognize interest income equal to the amount of any net positive adjustment, *i.e.*, the excess of actual payments over projected payments, in respect of a CPDI note for a taxable year. A net negative adjustment, *i.e.*, the excess of projected payments over actual payments, in respect of a CPDI note for a taxable year:

- will first reduce the amount of interest in respect of the CPDI that you would otherwise be required to include in income in the taxable year; and
- to the extent of any excess, will give rise to an ordinary loss, but only to the extent that the amount of all previous interest inclusions under the CPDI exceeds the total amount of your net negative adjustments treated as ordinary loss on the CPDI in prior taxable years.

A net negative adjustment is not subject to the limitation imposed on miscellaneous itemized deductions under Section 67 of the Code. Any net negative adjustment in excess of the amounts described above will be carried forward to offset future interest income in respect of the note or to reduce the amount realized on a sale, exchange or retirement of the note.

Upon a sale, exchange or retirement of a note (including at its maturity or early redemption), you generally will recognize taxable gain or loss equal to the difference between the amount received from the sale, exchange or retirement and your adjusted tax basis in the note. Your adjusted tax basis in a CPDI will equal the cost thereof, increased by the amount of interest income previously accrued by you in respect of the note (determined without regard to any of the positive or negative adjustments to interest accruals described above) and decreased by the amount of any prior projected payments in respect of the note. You generally must treat any gain as interest income and any loss as ordinary loss to the extent of previous interest inclusions (reduced by the total amount of net negative adjustments previously taken into account as ordinary losses), and the balance as capital loss. Such losses are not subject to the limitation imposed on miscellaneous itemized deductions under Section 67 of the Code. The deductibility of capital losses, however, is subject to limitations. Additionally, if you recognize a loss above certain thresholds, you may be required to file a disclosure statement with the IRS. You are urged to consult your tax adviser regarding these limitations and reporting obligations.

Tax Consequences to Non-U.S. Holders

The following discussion applies to you only if you are a “Non-U.S. Holder” of either a VRDI or a CPDI. You are a “Non-U.S. Holder” if you are a beneficial owner of a note for U.S. federal income tax purposes that is:

- a nonresident alien individual;
- a foreign corporation; or
- a nonresident alien fiduciary of a foreign estate or trust.

You are not a “Non-U.S. Holder” for purposes of this discussion if you are an individual present in the United States for 183 days or more in the taxable year of disposition. In this case, you should consult your own tax adviser regarding the U.S. federal income tax consequences of the sale, exchange or other disposition of a note.

Payments to you on the notes, and any gain realized on a sale or exchange of the notes, will be exempt from U.S. federal income tax (including withholding tax) *provided* generally that you certify on IRS Form W-8BEN, under penalties of perjury, that you are not a U.S. person and provide your name and address or otherwise satisfy applicable documentation requirements, and such amounts are not effectively connected with your conduct of a U.S. trade or business.

If you are engaged in a trade or business in the United States and if the income or gain on the note, if any, is effectively connected with your conduct of such trade or business, although exempt from the withholding tax discussed above, you will generally be subject to regular U.S. income tax on such income or gain in the same manner as if you were a U.S. Holder, except that in lieu of the

certificate described in the second preceding paragraph, you will be required to provide a properly executed IRS Form W-8ECI in order to claim an exemption from withholding tax. If this paragraph applies to you, you are urged to consult your tax adviser with respect to other U.S. tax consequences of the ownership and disposition of the notes, including the possible imposition of a 30% branch profits tax if you are a corporation.

If you are an individual, your notes will not be included in your estate for U.S. federal estate tax purposes, *provided* that interest on the notes is not then effectively connected with your conduct of a U.S. trade or business.

Backup Withholding and Information Reporting

Interest (including OID) paid or accrued on the notes and the proceeds received from a sale, exchange or other disposition (including at maturity) of notes will be subject to information reporting if you are not an "exempt recipient" (such as a domestic corporation) and may also be subject to backup withholding at the rates specified in the Code if you fail to provide certain identifying information (such as an accurate taxpayer identification number, if you are a U.S. Holder) or meet certain other conditions. If you are a Non-U.S. Holder and you comply with the identification procedures described in the preceding section, you will generally establish an exemption from backup withholding.

Amounts withheld under the backup withholding rules are not additional taxes and may be refunded or credited against your U.S. federal income tax liability, provided the required information is furnished to the IRS.

UNDERWRITING

Under the terms and subject to the conditions contained in the Master Agency Agreement entered into between JPMorgan Chase & Co. and J.P. Morgan Securities Inc. as agent (an "Agent" or "JPMSI"), and certain other agents that may be party to the Master Agency Agreement from time to time (each an "Agent" and collectively with JPMSI, the "Agents"), each Agent participating in an offering of notes, acting as principal for its own account, has agreed to purchase, and we have agreed to sell, the principal amount of notes set forth on the cover page of the relevant terms supplement. Each such Agent proposes initially to offer the notes directly to the public at the public offering price set forth on the cover page of the relevant terms supplement. JPMSI will allow a concession to other dealers, or we may pay other fees, in the amount set forth on the cover page of the relevant terms supplement. After the initial offering of the notes, the Agents may vary the offering price and other selling terms from time to time.

We own, directly or indirectly, all of the outstanding equity securities of JPMSI. The underwriting arrangements for this offering comply with the requirements of Rule 2720 of the Conduct Rules of the NASD regarding an NASD member firm's underwriting of securities of an affiliate. In accordance with Rule 2720, no underwriter may make sales in this offering to any discretionary account without the prior approval of the customer.

JPMSI or another Agent may act as principal or agent in connection with offers and sales of the notes in the secondary market. Secondary market offers and sales will be made at prices related to market prices at the time of such offer or sale; accordingly, the Agents or a dealer may change the public offering price, concession and discount after the offering has been completed.

In order to facilitate the offering of the notes, JPMSI may engage in transactions that stabilize, maintain or otherwise affect the price of the notes. Specifically, JPMSI may sell more notes than it is obligated to purchase in connection with the offering, creating a naked short position in the notes for its own account. JPMSI must close out any naked short position by purchasing the notes in the open market. A naked short position is more likely to be created if JPMSI is concerned that there may be downward pressure on the price of the notes in the open market after pricing that could adversely affect investors who purchase in the offering. As an additional means of facilitating the offering, JPMSI may bid for, and purchase, notes in the open market to stabilize the price of the notes. Any of these activities may raise or maintain the market price of the notes above independent market levels or prevent or retard a decline in the market price of the notes. JPMSI is not required to engage in these activities, and may end any of these activities at any time.

No action has been or will be taken by us, JPMSI or any dealer that would permit a public offering of the notes or possession or distribution of this product supplement no. 93-II or the accompanying prospectus supplement, prospectus or terms supplement, other than in the United States, where action for that purpose is required. No offers, sales or deliveries of the notes or distribution of this product supplement no. 93-II or the accompanying prospectus supplement, prospectus or terms supplement or any other offering material relating to the notes, may be made in or from any jurisdiction except in circumstances which will result in compliance with any applicable laws and regulations and will not impose any obligations on us, the Agents or any dealer.

Each Agent has represented and agreed, and each dealer through which we may offer the notes has represented and agreed, that it (i) will comply with all applicable laws and regulations in force in each non-U.S. jurisdiction in which it purchases, offers, sells or delivers the notes or possesses or distributes this product supplement no. 93-II and the accompanying prospectus supplement, prospectus and terms supplement and (ii) will obtain any consent, approval or permission required by it for the purchase, offer or sale by it of the notes under the laws and regulations in force in each non-U.S. jurisdiction to which it is subject or in which it makes purchases, offers or sales of the notes. We shall not have responsibility for any Agent's or any dealer's compliance with the applicable laws and regulations or obtaining any required consent, approval or permission.

The notes are not and will not be authorized by the Comisión Nacional de Valores for public offer in Argentina and may thus not be offered or sold to the public at large or to sectors or specific groups thereof by any means, including but not limited to personal offerings, written materials, advertisements or the media, in circumstances which constitute a public offering of securities under Argentine Law No. 17,811, as amended.

The notes have not been and will not be registered with the “Comissão de Valores Mobiliários” — the Brazilian Securities and Exchange Commission (“CVM”) and accordingly, the notes may not be sold, promised to be sold, offered, solicited, advertised and/or marketed within the Federative Republic of Brazil in an offering that can be construed as a public offering under CVM Instruction nº 400, dated December 29, 2003, as amended from time to time.

The notes have not been registered with the Superintendencia de Valores y Seguros in Chile and may not be offered or sold publicly in Chile. No offer, sales or deliveries of the notes, or distribution of this product supplement no. 93-II or the accompanying prospectus supplement, prospectus or terms supplement, may be made in or from Chile except in circumstances which will result in compliance with any applicable Chilean laws and regulations.

The notes may not be offered or sold in Hong Kong, by means of any document, other than to persons whose ordinary business it is to buy or sell shares or debentures, whether as principal or agent, or in circumstances that do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32) of Hong Kong. Each Agent has not issued and will not issue any advertisement, invitation or document relating to the notes, whether in Hong Kong or elsewhere, which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to notes which are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” within the meaning of the Securities and Futures Ordinance (Cap. 571) of Hong Kong and any rules made thereunder.

The notes have not been, and will not be, registered with the National Registry of Securities maintained by the Mexican National Banking and Securities Commission nor with the Mexican Stock Exchange and may not be offered or sold publicly in the United Mexican States. This product supplement no. 93-II and the accompanying prospectus supplement, prospectus and terms supplement may not be publicly distributed in the United Mexican States.

Neither this product supplement no. 93-II nor the accompanying prospectus supplement, prospectus or terms supplement has been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this product supplement no. 93-II, the accompanying prospectus supplement, prospectus or terms supplement, and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the notes may not be circulated or distributed, nor may the notes be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the “SFA”), (ii) to a relevant person, or any person pursuant to Section 275(1A), and in accordance with the conditions, specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA.

Unless otherwise specified in the relevant terms supplement, the settlement date for the notes will be the third business day following the pricing date (which is referred to as a “T+3” settlement cycle).

BENEFIT PLAN INVESTOR CONSIDERATIONS

A fiduciary of a pension, profit-sharing or other employee benefit plan subject to the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), including entities such as collective investment funds, partnerships and separate accounts whose underlying assets include the assets of such plans (collectively, "ERISA Plans") should consider the fiduciary standards of ERISA in the context of the ERISA Plans' particular circumstances before authorizing an investment in the notes. Among other factors, the fiduciary should consider whether the investment would satisfy the prudence and diversification requirements of ERISA and would be consistent with the documents and instruments governing the ERISA Plan.

Section 406 of ERISA and Section 4975 of the Code prohibit ERISA Plans, as well as individual retirement accounts and Keogh plans subject to Section 4975 of the Code (together with ERISA Plans, "Plans"), from engaging in certain transactions involving the "plan assets" with persons who are "parties in interest" under ERISA or "disqualified persons" under the Code (in either case, "Parties in Interest") with respect to such Plans. As a result of our business, we are a Party in Interest with respect to many Plans. Where we are a Party in Interest with respect to a Plan (either directly or by reason of ownership of our subsidiaries), the purchase and holding of the notes by or on behalf of the Plan would be a prohibited transaction under Section 406 of ERISA and Section 4975 of the Code, unless exemptive relief were available under an applicable exemption (as described below).

Accordingly, the notes may not be purchased or held by any Plan, any entity whose underlying assets include "plan assets" by reason of any Plan's investment in the entity (a "Plan Asset Entity") or any person investing "plan assets" of any Plan, unless such purchaser or holder is eligible for the exemptive relief available under Section 408(b)(17) of ERISA or Prohibited Transaction Class Exemption ("PTCE") 96-23, 95-60, 91-38, 90-1 or 84-14 issued by the U.S. Department of Labor or the statutory exemptions under Section 408(b)(17) of ERISA and Section 4975(d)(20) are available or there was some other basis on which the purchase and holding of the notes is not prohibited. Each purchaser or holder of the notes or any interest therein will be deemed to have represented by its purchase of the notes that (a) its purchase and holding of the notes is not made on behalf of or with "plan assets" of any Plan or (b) its purchase and holding of the notes will not result in a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Code.

Employee benefit plans that are governmental plans (as defined in Section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA) and non-U.S. plans (as described in Section 4(b)(4) of ERISA) are not subject to these "prohibited transaction" rules of ERISA or Section 4975 of the Code, but may be subject to similar rules under other applicable laws or documents ("Similar Laws"). Accordingly, each purchaser or holder of the notes shall be required to represent (and deemed to have represented by its purchase of the notes) that such purchase and holding is not prohibited under applicable Similar Laws.

Due to the complexity of the applicable rules, it is particularly important that fiduciaries or other persons considering purchasing the notes on behalf of or with "plan assets" of any Plan consult with their counsel regarding the relevant provisions of ERISA, the Code or any Similar Laws and the availability of exemptive relief.

Each purchaser and holder of the notes has exclusive responsibility for ensuring that its purchase and holding of the notes does not violate the fiduciary or prohibited transaction rules of ERISA, the Code or any Similar Laws. The sale of any notes to any Plan or plan subject to similar laws is in no respect a representation by us or any of our affiliates or representatives that such an investment meets all relevant legal requirements with respect to investments by such plans generally or any particular plan, or that such an investment is appropriate for plans generally or any particular plan.
